CS265: Advanced Programming Techniques
Summer 2022

Assignment #1
Due date: Wednesday, July 20 at 11:59 PM

What to do

- This assignment is called "Count the Zoo"
- A zoo administrator is interested to count how many animals are found in the file system. You will write a script that will help the zoo administrator tally the total number of animals.
- Follow the instructions from

  https://www.cs.drexel.edu/~kschmidt/CS265/Assignments/Bash-Tallies/index.html

- Except do not submit using the "submit" tool.

What to submit

Submit your script named `assn1` in Blackboard.

Your script should be a text file without a filename extension. Do not submit a .doc file, a .zip file, or a .pdf file. These formats are not correct for this assignment and will not be accepted. Make sure you develop and test your script on tux. Do not submit your test data.
